

# Projectmanager Cloud & News Technologies (m/w/d)

**evoila GmbH** is looking for a new colleague in the position of a

## **Projectmanager Cloud & New Technologies (m/w/d)**

### **Who we are**

Our evoila team offers services around the cloud. We help our customers with a holistic approach to migration in private, hybrid and public cloud environments. Our services range from vendor-independent consulting to the development of customer-specific software solutions. We focus on IaaS (Infrastructure-as-a-Service) and PaaS (Platform-as-a-Service) solutions and the development of software and transformation projects.

### **Your responsibilities**

- Support the customer as Trusted Advisor for Project Management
- Project planning and control
- Resource Management
- Documentation
- Managing problems and decision-making scenarios
- Professional appearance
- Readiness to travel
- Development and expansion of customer relationships
- Add-On Business

## Your background:

- Proven experience with technological IT projects
- Understanding Cloud Technologies
- Expertise with distributed project teams
- IT infrastructure know-how
- Desirable experiences in the virtualization environment
- You have experience in one of these areas?
  - vCloud solutions (vSphere, VMware ESXi, VMware vCenter, VMware vSan, vRealize Orchestrator, vRealize Automation, vRealize Operations, etc.) or OpenStack (Ceph, etc.), Kubernetes, Docker, AWS, ElasticSearch, Software Distribution, Mobile Computing, Sharepoint, or other modern technologies
- First knowledge of agile project management
- Serious appearance
- Fluent German and good English
- Willingness to get to know new technologies

## What you get:

- A unique working atmosphere
- Performance-related pay
- Many freedoms in personal and professional development and advancement
- Continuous training and learning
- Regular, company-wide team events
